

Fritschi Diamir Freeride Pro / Eagle '10

size SM/ML/XL

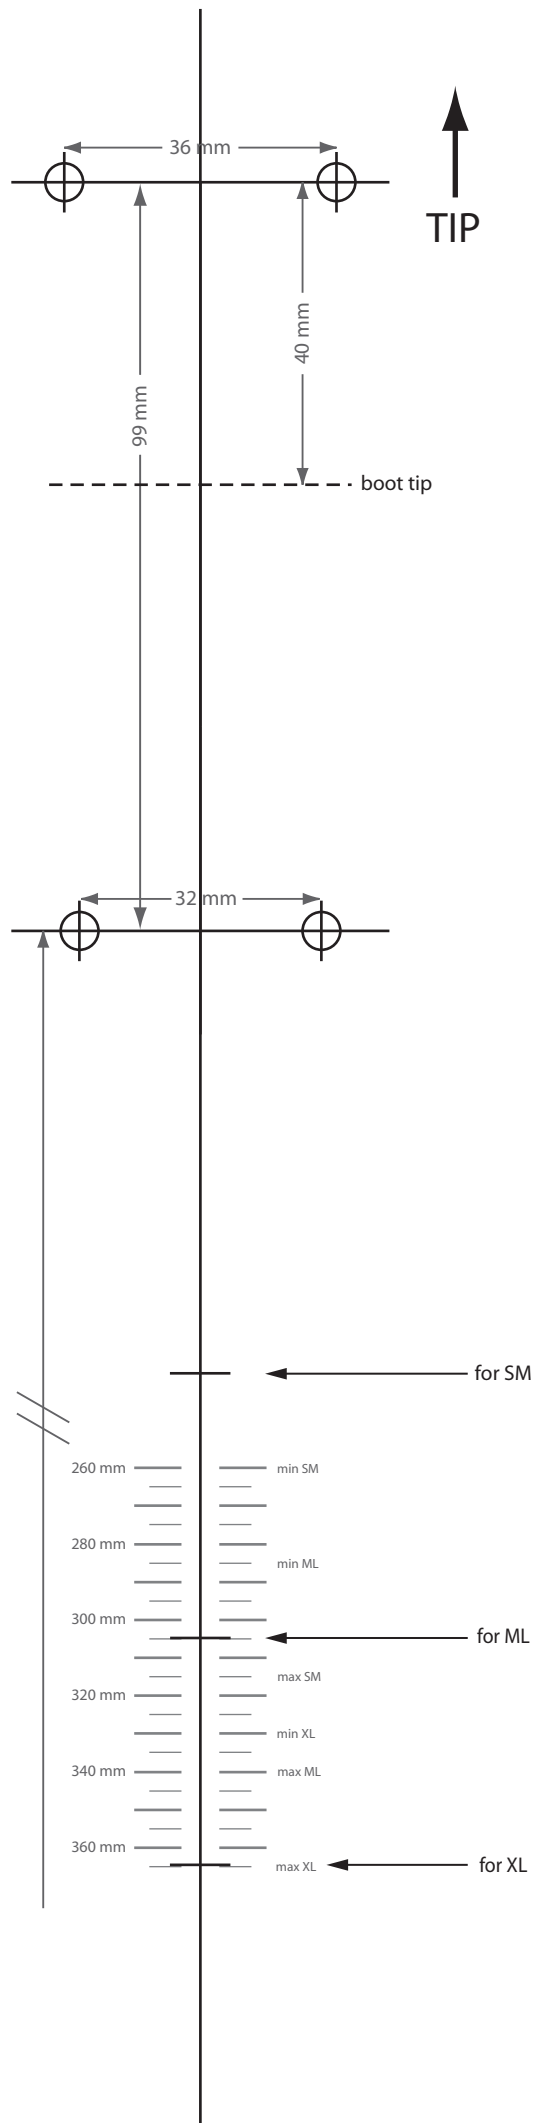

check scale 1cm

assemble here with
other half of
caliber

For midsole position:

- check on your boot, whether the boot center mark is really in the middle (for some boots it isn't)
- align with scale on toe template to mid sole mark on ski
- when the caliper is fixed to the ski, check with your bindings and boots inserted, whether positioning is right (also for screw positions)

assemble here with other half of caliber
